2020-2021
ANNUAL REPORT

Major campaign

**IMPROVING HEALTH CARE
SERVICES IN OUR REGION**

Sonia Haché

Former patient of the
dialysis unit

Natacha Caissie Blanchard

Patient from the Chronic
Disease Management Sector

The major campaign was a great success. We are very grateful to our partners, who continue to support us despite the challenges caused by the pandemic. We are also very proud to be able to say that your great generosity made it possible to add three treatment chairs to our hospital's Dialysis Unit, significantly reducing the number of trips for several people in our community to get their treatments. We can also announce that the construction of the chronic disease management clinic is complete and that our health care professionals are now ready to welcome you in their new facilities.

VITAL SUPPORT FROM OUR PARTNERS

The annual campaign remains at the heart of our foundations, because each year it gives us the opportunity to tell you about the facility's current needs and about our past achievements. We are very proud to be able to rely on the community's great generosity, but also to be able to count on two major fundraising events:

 **RADIOTHON
DES
ROSES
RADIOTHON**

Mr. Eric Robichaud, Chair of the event for our foundation, was able to meet the challenge and exceed the objective, which will help us support several sectors in our hospital and the fight against cancer;

This event, which was chaired by Ms. Natacha Caissie-Blanchard and which is possible thanks to our major partner UNI Financial Cooperation, was a success again this year.

Loto Coop Santé Communautaire

**MAJOR PARTNERSHIP WITH THE
COOPÉRATIVE RÉGIONALE DE LA BAIE LTÉE**

We must mention our privileged partnership with the Coopérative Régionale de la Baie Ltée, which is done through the 50/50 lottery. This partnership allowed us to enhance and develop many services in the past. The \$500,000 commitment for the major campaign is coming to an end, and a new project will soon be announced.

Thanks to you...

Despite sometimes being demanding, the work of collecting donations is significantly offset by the great satisfaction of being able to help members of the hospital community make things better for patients through project funding. Here is the breakdown of donations by sector:

\$867,949

for patient care as well as diagnostic, treatment, and follow-up services;

\$24,339

for specialized regional services and the fight against cancer;

\$3,500

for training and development.
